Travel Evening: Oman – an Exotic Sultanate

When: Wednesday, 2 April, from 5:30 p.m.

Where: Filadelfie Building shopping arcade, Želetavská 1525/1

Speaker: Václav Bacovský

In Oman, we can find vast deserts with wild camels, high mountains and deep canyons, villages surrounded by palm groves, as well as cities where modern architecture stands alongside ancient forts and markets.

Oman is a country where ancient traditions and the modern age come together. Under the rule of the enlightened Sultan Qaboos, Oman has taken a giant step forward in the last fifty years, from one of the most backward to one of the fastest developing countries in the world. Despite its growing wealth, it is still a country of friendly, hospitable and tolerant people. On the beautiful beaches, we still encounter more giant sea turtles than bathing tourists, who are just beginning to discover Oman.

Join us in exploring this incense-scented land.

Building B

Talk: Muscle Has Different Energy Than Fat

When: Monday, 7 April, from 6:00 p.m.

Where: FLEKSI, Building B, Vyskočilova 1422/1a

Speaker: **Gabriela Končítíková** (Tomáš Baťa Foundation)

How we feel in our body directly influences our approach to life - and therefore to work. When the Baťa corporate culture began to change under the influence of this idea of Tomáš Baťa, it wasn't just about a person's appearance. The emphasis was on a truly healthy and harmonious body, one that the individual can take responsible care of.

Tomáš Baťa believed that the key to running a successful company is a person's ability to manage their own body - to take care of it and provide it with everything it needs. According to Tomáš Baťa, the mind and soul reside in the body, but in order to fulfil their role, they have to reside in a body that is cared for. Baťa was aware that most people were not taught to take care of their bodies with real understanding. What lessons can we learn from Baťa's approach today? Our talk entitled „Muscle Has Different Energy Than Fat“ will tell you more about this.
