Taiwan

In search of tea and adventure

When: Wednesday 6 May, from 5:30 pm

Where: Filadelfie Building shopping arcade, Želetavská 1525/1

Speaker: Vít Hosenseidl

Join us for another evening in our travel series and discover a country that, despite pressure from a powerful neighbour, continues to preserve its freedom, culture and unique identity. Taiwan... a democratic island that is rarely talked about, yet one whose existence China would perhaps prefer to erase from the map.

During this ten-day journey, you'll be transported to tea plantations, bamboo forests and hot springs. You'll climb the island's highest mountain, taste authentic hotpot and walk through a marble gorge. And yet all this is just a small part of a ten-month journey around the world, with Taiwan leaving one of the strongest impressions of all.

Talks from Brumlovka

When: Wednesday 27 May, from 6:00 pm

Where: première online on the **Brumlovka FB profile**

Every month, we invite people who we feel have something to say and whose professional or personal life is somehow associated with Brumlovka.

Different person, different topic, but always at Brumlovka.

This month: *Iveta Matyášková*

Mgr. Iveta Matyášková completed an integrated degree in special education and primary teaching at Charles University, specialising in speech therapy, somatopedics and art therapy. For more than 25 years, she has been professionally dedicated to the education and support of young children – as a teacher, clinical speech therapist and school speech therapist. In her work, she builds, among other things, on the approach of her professor, child psychologist Zdeněk Matějček, and has long focused on speech development, supporting learning and the overall harmonious development of the child.

Today, she leads the teaching team as head teacher at Elijáš Nursery School, where she combines professional expertise with everyday practice. In our interview, she will explore topics such as early education, the importance of speech for success at school, and why working with young children is a lifelong calling.

The interview will be conducted by Eduard Forejt.

Alpha Building

Exhibition: Returns to Greece

Aleš Spáčil

When: May 2026

Where: Alpha Building, Vyskočilova 1461/2a

After ten years, Aleš Spáčil is once again exhibiting his artwork, primarily drawings. Over this time, the themes of his work have evolved, becoming more connected to reality and moving away from the abstract character that dominated his work in the 1980s and 1990s, when he first exhibited in the German town of Baunatal.

The current exhibition mainly presents landscape and figurative motifs, with Aleš, a great admirer of Greece, allowing his inspiration from the country to shine through in many of his works. The exhibition features drawings in pencil, ink and marker. Drawing allows for a more flexible depiction of reality, enabling the artist to express a moment of inspiration instantly, while painting requires careful preparation and time.

Come and be inspired and enjoy an exceptional art experience.

Meera Design

Fashion is a way of expressing who we are – without words

Every day starts in much the same way. A hectic pace, a packed schedule and very little time to think about what to wear. And yet the expectation remains – to look calm, confident and professional in every situation.

These are challenges many women will recognise:

- Reaching for familiar outfits that no longer reflect who they are
- Feeling that their wardrobe no longer keeps up with their role or pace of life
- Balancing comfort with how they want to be perceived
- Daily outfit decisions becoming unnecessarily stressful

A wardrobe as a functional system

Meera Design styling helps you cope with everyday situations when there's no time to try out different options and you need to quickly choose an outfit that will see you through the day. Stylists build on what women actually wear and need, suggesting reliable outfit combinations without hesitation or overthinking. Every piece has its place and a clear purpose. The result is a style that works in real life. It saves time in the morning, gives you confidence throughout the day, and doesn't leave you feeling that "something just wasn't right today".
