Filadelfie Building

The Best of Pakistan

When: Wednesday 3 June, from 5:30 pm

Where: Filadelfie Building shopping arcade, Želetavská 1525/1

Speaker: Petr Rabušic

When Pakistan is mentioned, most people imagine a tourist stepping off a plane and immediately being attacked or kidnapped. The reality, however, is very different from the label the country has acquired and the way it is often portrayed in the media. We'll talk about how easy it is to travel around the country completely outside mainstream tourism – and how even an office worker from Prague can manage a journey like this.

We'll explore the most beautiful places in Pakistan and discuss what it's like to travel in areas where there is often no mobile signal, where accommodation is rarely booked through Booking.com, and where many of the conveniences we're used to in other countries simply do not exist – only to discover that none of them are really needed in Pakistan.

Every month, we invite people who we feel have something to say and whose professional or personal life is somehow associated with Brumlovka. We want to seek out inspiration and advice for you, but also to present life's victories and defeats.

A different guest, a different topic, but always at Brumlovka.

This month: [Alexander Choupenitch](#)

The bronze medallist from the Tokyo Olympic Games – the first Olympic medal for Czech fencing – has long ranked among the world's elite. On the fencing piste, victory is decided by fractions of a second, strategy and mental resilience – and during the interview, Alexander will give you an insight into this fascinating world.

In a moderated discussion with Eduard Forejt you'll hear the story of his journey to the Olympic podium, as well as what everyday life is like for a top athlete, how he prepares for bouts where a single touch decides victory, and what it's like to study and train abroad.

Traditional Moravian koláče from Zrno zrnko

Moravian koláče from Zrno zrnko are made from carefully selected ingredients – high-quality wheat flour from Předměřice, fresh milk, butter from La Formaggeria, free-range egg yolks from Václav Matoušek's family farm, sugar and yeast, which brings the dough to life.

Each koláč begins with a starter that is left to mature naturally, making the dough beautifully light and soft. They follow a precise process, keeping to the ideal temperature and giving the dough enough time to rise, as patience is what makes all the difference. The koláče are shaped by hand and generously filled with organic quark from Struhy farm and ripe fruit.

They are baked until golden so that every piece is not only beautiful to look at, but above all irresistible to taste – especially as they are brushed with melted butter and rum after baking.

The whole concept can be tailored to the size of your team, your company's style and the atmosphere you want to create, so the event feels natural, enjoyable and professional.
