We're running throughout the holidays too

Summer may be here, but our free electric buses are running throughout the holiday season as usual. Even during the summer holidays, they continue to run according to the regular timetable and are available every working day.

Throughout the summer, you can continue to enjoy the popular 100% electric shuttle service between Budějovická metro station and Brumlovka.

Keep track of current departures. Electronic timetables are available in the Brumlovka app, where you will also find an overview of events, news and updates, daily menus from canteens and restaurants, a map with navigation and other useful information for everyone who lives, works or visits Brumlovka.

Talks from Brumlovka

When: Wednesday 29 July, from 6:00 p.m.

Where: première online on the **Brumlovka FB profile**

Every month, we invite people who we feel have something to say and whose professional or personal life is somehow associated with Brumlovka.

A different guest, a different topic, but always at Brumlovka.

This month: Štěpán Vajrauch

Štěpán works as Key Partner Manager at the catering company Zátíší Catering, which gives him the opportunity to be part of a wide range of interesting projects - including long-term cooperation with Passerinvest Group. As he says: "Take the Roztyly Plaza project, for example – we were there quite literally from the very beginning - from a glass of prosecco at the foundation stone ceremony, through coffee breaks directly on the construction site, all the way to the grand opening." This is exactly what Štěpán enjoys most about catering. As he puts it, they are not merely "a supplier for one evening", but often become part of a much bigger story. They watch projects grow over time and are present at moments that hold genuine meaning for their guests and clients. They want to give guests a WOW experience - and they've been doing just that for 35 years.

The interview will be conducted by Eduard Forejt.

Exhibition: Šumava... traditional and unconventional

Václav Tyrpekl

When: July 2026

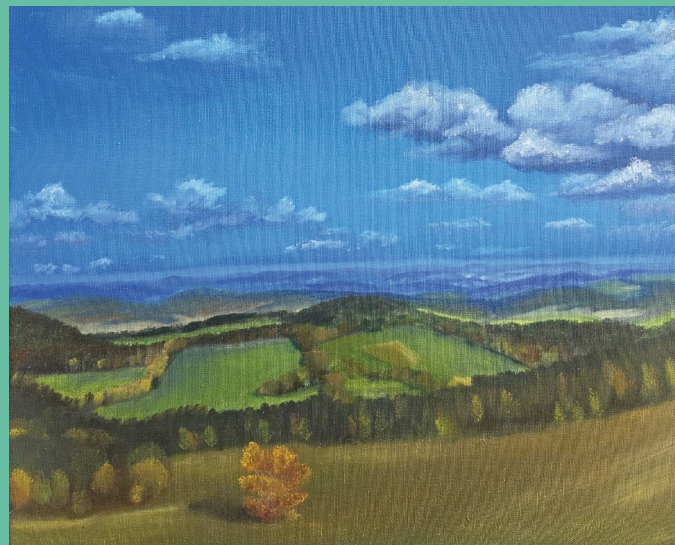

Where: Alpha Building, Vyskočilova 1461/2a

This exhibition presents a collection of works inspired by Šumava and the Šumava foothills, the artist's native region, and by their unique energy and harmony.

Šumava is beautiful, quiet, cosy and romantic, yet it can also be rugged, inhospitable, barren and mysterious. The paintings combine personal impressions of the region's mountains, valleys, people and culture.
